BROOKLYN:
E. B. SPOONER, PRINTER,
Franklin Buildings, corner of Fulton and Orange streets.
1848.
IN compiling a work of this kind, it has been the design of the compiler to present to the public of Brooklyn, a complete vocabulary of the names of all persons in the city, with occupations and residences usually contained in a city directory.

This work will be found to contain nearly Three thousand more names than that of last year, and more explicit and correct than any former one published in this city. This volume will also contain all the material, general and statistical information relating to the various political departments of the City of Brooklyn, and County of Kings, also an account of all religious civil, charitable and miscellaneous institutions. The multiplied relations, and constantly growing interests connected with our flourishing and prosperous city, as also the county, furnish a large fund of interesting and useful information which cannot be found in any other work.

By reference to the table of contents, it will be seen that the work has been compiled and arranged on a plan, which the compiler flatters himself, will commend it to all classes of his citizens, as a general reference book—the professional man, the merchant, the mechanic, the man of leisure, and the public generally, will find it to be a valuable, useful, and highly interesting volume. The information which it contains, may be relied upon with certainty, for its accuracy in all its details. In addition to the general usefulness of this work to the business public, it will be found exceedingly serviceable to public officers and politicians, wherein they will be able to see the city and its concerns at one view, with all matters of interest connected therewith. To the transient visitor and stranger, it will prove both useful and indispensable in pointing out every species of information which will aid him in becoming familiar (at a small cost and little sacrifice of time) with a perfect acquaintance with our municipal concerns, which would require years of experience, and close personal observation, to become equally informed.

It is the intention of the publishers to continue the publication of this work annually, adding, from year to year, such additional information as presents itself, pledging themselves that no expense or labor will be spared to make each forthcoming Brooklyn Directory and Municipal Register, a work acceptable and useful to all classes of our citizens. By a careful perusal of this volume, it will be observed that the information which it contains is of a character which will form a part of the history of Brooklyn and the county of Kings, and as a record of general interest, will doubtless ensure its preservation. The compiler trusts therefore, that a generous public will, by their patronage, sustain this undertaking, which will enable him to render the future publications equally, if not more interesting and useful.

The compiler presents his thanks to the various heads of departments connected with the city and county, as also to the several officers and Secretaries of our public institutions, for their kindness in furnishing him with information relating to their departments also to the Navy department, and Dry Dock department, for their especial favors.

THOMAS P. TEALE.

Enterprise and invention being daily on the increase in this great country and advanced age, necessarily produces novelties and changes wholly uncontemplated.

Thus we have for this year a New Directory and Municipal Register replete with every information and matter that can avail the whole community at large; more especially the tradesman who has absolute need of such a boon.

J. B. Stratton avails himself of this medium to advertise his business, and return his thanks for the liberal patronage he has received during the past year. His most sanguine hopes have been realized as regards the success of his Saloon and general Confectionary and Bakery Establishment. Thus verifying that enterprise and assiduity will induce the inhabitants of Brooklyn to patronize this side of the water instead of New York.

There is little doubt but Atlantic street will become the Broadway of this city—J. B. S. foreseeing this, unhesitatingly made a bold effort, and combined elegance with economy, and luxury with extent and convenience.

The arrangements of the Saloon have met the approbation of all those who have paid it a visit, and the public are further assured that every pains and study will be taken to render this establishment unsurpassed by any in the United States.

The following are some of the many luxuries to be obtained as above:

- Ices, Ice Creams, Strawberries and Cream,
- Peaches and other choice fruits of the season,
- Confectionary, Pastry, Jellies, and
- Sweetmeats of every kind and variety,
- Soda and Mineral Waters, and
- Summer beverages of every description.

Waiters and Music provided.

LOOK TO YOUR ROOFS.

The subscribers would call the attention of the public to their PATENT INDIA RUBBER PAINT, for Roofs, Fronts of Buildings, Boats, and all outside work, upon which the weather has no effect.

BOOT AND SHOE
STORE.

116 Fulton Street.

BROOKLYN TRIUMPHANT.

It is no longer necessary for the citizens of Brooklyn to go to New York in order to get their boots made, in order to secure a good fit, an elegant boot, and made of the best materials, as hundreds are willing to testify that the above qualities have been accomplished by Mundell, of this city, for several years past, and in order to make it more apparent, the judges appointed at the late fair of the American Institute, held at Castle Garden, have awarded him 3 Silver Medals and a Diploma, for the best Cork sole, Double sole, and Gentlemen’s dress boots.

The subscriber never begs for the patronage of any one but would rather let his work speak for itself, and he would not now come before the public in this way, but for the consideration that there are hundreds of gentlemen in this city who are not aware that they can be furnished, in point of workmanship and material, and at less price than they can get them in New-York. The subscriber is very careful in selecting the best sole leather, and French calf skin, for all the boots made at his establishment; and those who see fit to patronize him may depend upon a fit, or they are not expected to take the Boots. All orders attended to as punctually as possible.

To Owners of Real Estate
IN BROOKLYN.

The undersigned, (late Comptroller of this city,) has opened an office at No. 50 Fulton street, for the purchase and sale of Real Estate, and for insuring property against the numerous difficulties and expenses to which it is liable from taxes and assessments. It is well known that a great amount of property is annually sold for non-payment of taxes and assessments, owing to imperfect descriptions of the property and various other irregularities, but too well understood by those who have been sufferers, and yet difficult to be avoided: hundreds of cases having occurred where the owners of real estate have either lost it entirely or have been compelled to submit to expensive or tedious litigation, or to pay a sum equal to half its value to redeem it.

The undersigned will guarantee to those who may favor him with such business, to give them immediate notice of all assessments and taxes on their property as soon as levied; and thus avoid not only the sale of their property without their knowledge but also the payment of collectors' fees and all other expenses attendant on such matters, holding himself personally responsible for any loss or expense incurred through his neglect.

Assessment and tax titles investigated, and all business connected with taxes and assessments and the difficulties resulting therefrom, promptly attended to.

ALBERT H. OSBORN, Real Estate Agent.

2. The said city shall be divided into nine Wards, as follows, viz: The five districts of the Village of Brooklyn as they are now laid out, shall constitute the same number of wards, and shall be respectively numbered and designated as wards in the same manner as they are now numbered and designated as districts.

3. The Legislative power shall be vested in a Mayor and Board of Aldermen, who together, shall constitute and be denominated the Common Council, and a majority of the whole number shall be a quorum for the transaction of business.

The only market in Brooklyn at this time was an old building near the water, in the middle of the street, at Fulton Ferry, where the flag staff now stands. It was regarded as a nuisance, and in the night a large body of patriotic fellows demolished it, the butchers then built meat shops or stalls on the east side of the street, below Front street. The steamboat Nassau commenced running May 10. Her trips varied from five to twelve minutes. Her engineer, Mr. Rhoda, was accidentally killed, by being drawn into the machinery.

At the Catharine Ferry, Boats were propelled by eight horses. The events of the war about this time were of great interest. It is stated that the new boat Nassau crossed the ferry 40 times in one day, and was generally from 4 to 8 minutes in crossing.

August 10. The inhabitants of Brooklyn combined to work upon the fortifications. Thousands of persons of every rank and calling, labored in throwing up breastworks at Fort Greene, Fort Swift, and along the whole line around Brooklyn. Soldiers were encamped in the green fields between Sands street and Fort Green. The free people of color volunteered in the patriotic work. (It is difficult now to discover the spot where Fort Swift was located) The work on the fortifications was in the following order:

August 15, Monday, three military companies of Brooklyn
Tuesday, three military and one fire company
Wednesday, the people of Bushwick

The volunteers or 'patriotic diggers,' crossed the ferries every morning with banners and music, and repaired to labor on the forts. Large parties sometimes worked in the night by moonlight.

Feb 20 New York was illuminated in honor of the peace with Great Britain, and Brooklyn and the villages of Long Island on Tuesday the 21st.

April Richard Fish was this year elected to the Assembly, Charles J Doughty was the federal candidate. Jacob Parker elected Senator, Leffert Lefferts the federal candidate. The subject of forming a Bible Society at this time interested the people of Long Island.

Sept The subject of corporate or village powers was discussed in the paper. Samuel Young of Oyster Bay, advertises for sale, 'a stout, able bodied slave, 26 years old, now confined in jail in consequence of absenting himself from his master's service.'

Sept 23 A tremendous gale of wind and high tides did great damage at Brooklyn and along the shores of Long Island. A Society to suppress Vice, was at this
time in operation in Brooklyn. It is complained in the papers that there are no side walks in Brooklyn.

Dec The place is much agitated on the propriety of a Village Incorporation.

1816; Jan 12 The freeholders and inhabitants of Common School District No 1, resolved to purchase of Noah Waterbury four lots of ground near the Alms House, to build a school house, and that the Loisian Shool be the Common Shool until the house is built. Sunday Shools were established about this time. The question of a Village Incorporation was warmly debated in the only paper in Brooklyn. - the Long Island Star.

March 27 At this period there was no barber in Brooklyn, as Mr. J. Burke, who had long officiated as such, had removed to New York. It will appear strange to the citizens of the present day, that such a want should have existed. A number of persons feeling the necessity of the case met together and resolved to adopt the plan so common with churches and preachers, viz: raise money for a barbers' shop, and give a barber a call! One of the company put their intentions into a Song, as follows:

**Tune,—Anacreon**

**A NEW SONG**

At Barnum's Hotel,* where they met in full glee,

A few sons of merriment drew a petition,

Their beards were unshaven and hideous to see,

And their heads *discomfrizzled*, in frightful condition,

Each one told his case,

With deplorable face,

And ask'd what relief could be found in the place;

For the fair, (tender creatures) their smiles never gave

To the man who neglected to comb and to shave.

Then jump'd up on a bench, and addressed the throng,

---

*Mr. Barnum, who afterwards for many years kept a hotel in Baltimore, at this time, kept the principal Hotel in Brooklyn.*
A man of small size*, but in consequence big,
And said, 'for a price which no man will deem wrong,
I'll smooth every chin, and pomatum each wig,
Put your names down, I say,
If Five Dollars you'll pay,
I'll build a snug barber shop over the way,
Where ev'ry true son of Columbia may shave
And the Fair will yield to the smiles of the sleek
and the brave.'

The news thro'out Brooklyn most rapidly flew
And a WISE† man was call'd to direct the affair,
The Shaver's hard fortune he held out to view,
And all lent a favorable ear to his prayer,
They signed a long roll,
Bought a place for his pole,
And a snug little building now gladdens his soul,
Where the wise and the otherwise, the gallant and brave,
May frizzle and powder, may lather and shave

March. At this period the great question whether
Brooklyn should be incorporated, was discussed in the columns of the Star. The opposition to any incorporation was very numerous and respectable. They thought it better

"——— to bear the ills we suffer,
Than to fly to others, that we know not of.

April 10. The first incorporation of the Village of
Brooklyn was announced. The Trustees named in the bill were, John Garrison, John Doughty, Andrew Mercein, John Seaman, and John Dean. They were to hold their offices for one year, when others were to be elected.
The Constitution of the Brooklyn Sunday School Society comprising all the religious denominations of the village, is published in the Star of this date. The subject of erecting a district school house was agitated in the newspaper. The first district school was established in Mr. Kirk's old printing office in Adams near Sands street.
Andrew Mercein, John Seaman, and Robert Snow were

* A little consequential gentleman named Penny.
† George B. Wise, Esq., Purser U. S. Navy.
Trustees  They give notice that, for the present they can only accommodate from 35 to 40 scholars Each child was charged $1 50 per quarter

May 8  At a recent election Richard Fisk Republican received 519 votes and V B Magaw, Federal, 473 for Assemblymen, these were all the voters of Kings County

June  The ordinances of the new corporation begin to show themselves in the newspaper Rev J P K Henshaw ordained in St Ann’s Church

July 4  Three companies of Cavalry, and Brower’s artillery crossed the ferry in steam and team boats, to celebrate the anniversary of Independence in the city

August 15  At this time the corporation ordered that gravel side walks should be made and curbstones be put down in the principal streets of the village, Old Ferry and Main sts. The currency of the country at this period was in a most wretched condition, corporation bills and individual small bills were used in exchanges. Even New Jersey bills were 12 per cent discount. The size of bread was at this time regulated by law. David Anderson was appointed Inspector of sidewalks in the village. A law was passed to prevent hogs from running at large. A meeting of 'owners of slaves and servants' was called in Flatbush

December 18  The Trustees of the Village brought an action against Jacob Patchen for one week’s neglect or refusal to put down curbstones and make a gravel walk in front of his premises in Old Ferry street. It was a jury trial before Justice Nichols. The Trustees obtained a verdict of $5

January 15, 1817  At this time flour was $15 per barrel. Some of the people of Brooklyn, apprehending a further advance, proposed calling a meeting in New York and Brooklyn to petition the Government to prohibit the exportation of flour

January 17  Brooklyn was at this time under much apprehension from powder houses for storage of gunpowder at Fort Green. A special town meeting took place at Lawrence Brower’s, and a committee consisting of John Seaman, Fanning C Tucker, John Harmer, Abm Remsen and Charles J Doughty were appointed to obtain re-
lie in the premises. The one steamboat on the ferry was much retarded by ice. Thousands crossed on the ice while wedged between the ferries. The ferry company proposed adding a second boat propelled by horses, provided the inhabitants would join them in a petition to the Legislature to raise the ferriage to six cents!

January 29. The ferry company propose to put a teamboat on the Old (Fulton) Ferry, to run with the steamboat. The teamboat to run evenings till 8 o'clock during part of the year, and until 9 o'clock at other times.

February 7. A town meeting took place on the subject of ferry rights. A committee consisting of J. Johnson, A. J. Barbarin, H. Stanton, J. Harmer, and N. Waterbury, reported that the teamboats at the New (Mainst) Ferry, took four cents from each passenger, contrary to law, which gives only two cents 'except in the steamboat.' Among the abuses complained of, was the employing the ferry boats for purposes unconnected with the ferry, and hiring out the privilege to keep small boats, called six-penny boats, on the ferry. That the keepers, by management, caused almost all the passengers to cross in the steam or teamboats paying four cents, instead of the barges, paying two cents.

February 19. At this time the harbor was closed by ice, both at the Narrows and Hurlgate.

February 25. The distresses of the poor called for the strenuous exertions of the charitable citizens. A soup house was established which distributed from two to three hundred rations daily. A committee consisting of Messrs. Mercier, Tredwell, Wise, Tucker, Bache, Spooner, Garrison, and G. Hicks, was appointed to wait on the inhabitants, and obtain subscriptions for the purpose. A Fire Department had been established previous to this time. Poor persons in distress were invited to call on the Committee of Relief consisting of Rev. Messrs. Henshaw, Ireland, Crawford, and Woodhull, Doctors Hunt, and Ball, Capt. Renshaw, and Messrs. Remsen, Sands and Carter.

April 23. The temperance cause found strong advocates in the Star about this time.

May 7. At the annual election Cornelius Van Cleef,
and Jacob Patchen were run for Members of Assembly. Mr. Van Cleef received a majority of 116 votes. The first election for Village Officers was contested very sharply against the old Trustees, because they had allowed their names to be inserted in the Act of Incorporation. No political party question entered into the contest.— Both tickets embraced five candidates from each of the political parties. The party which had opposed any village incorporation elected as new Trustees Wm. Furman Henry Stanton, William Henry, Teunis Joralemon, and Noah Waterbury.

May 21. The question of a plan and survey of the village is proposed in the Star.

June 18. The Trustees by an ordinance altered the name of Old Ferry st. to Fulton st. President Monroe visited Brooklyn at this time.

August 13. After the excitement of two elections and several ferry meetings, the Village became so unusually tranquil, that a poet gave a touch of the times.

September. On the evening of the 13th a fire took place near the Old Ferry. The sufferers were John Hunter, Selah Smith, Burdet Stryker, George Hicks, Widow Cornell, J. W. Burtis and others.

November. Meetings took place about this time, to establish a Hook and Ladder Company.

December 3. BOARP OF HEALTH.

Is comprised of the Hon. Francis B. Stryker, Mayor, President, and the Board of Aldermen, members. Charles S. J. Goodrich, Physician to the Board of Health.

Deaths and interments in the city in the year 1847.

Month. Males. Females Adults Children. Total.
Jan. 56 50 48 58 160
This being an average of 35 a week. This aggregate includes many from New York, interred principally in Greenwood Cemetery, though nearly an equal number receive 'Permits' at this office to be carried out of the city to be interred elsewhere.

Thus it will be perceived that so far as the deaths in the city indicate the healthiness of its population, our citizens have cause of gratitude, and may congratulate themselves on the comparative healthfulness of their city. The ratio of deaths to population as compared with other cities is decidedly in our favor. Our present population is supposed to range between 80 and 85,000. The above summary therefore shows less per cent. of deaths, than obtains in most other cities of the United States. To secure a continuance of this state of things, every avenue to the introduction of disease, as well as every source of domestic and local origin, should be sedulously watched over, and guarded against, by the vigilance, and wisdom, and forecast of the constituted conservators of the public health.

**THE CITY HALL.**

Was commenced in the month of March, 1846. It is a substantial, neat, convenient and commodious building, located at the junction of Fulton, Joralemon and Court sts. The outer walls are constructed of white marble from the Westchester quarry which presents a grand and magnificent appearance. The building throughout is of the Grecian Ionic order of architecture, three stories in height. On the top and in the centre is
a cupola 90 feet high, surmounted with a carved figure representing the Goddess of Justice. In the front of the building at the principal entrance is a splendid portico, supported by six Grecian Ionic columns. The building is 162 feet broad by 102 feet deep, and 57 feet high. It contains offices and rooms for all the principal officers of the city and the county, also a spacious military drill room in the attic story, 156 feet in length by 40 feet in breadth. The building is thoroughly fire proof, the partition walls being entirely constructed of brick and substantial iron beams, supporting the floors with brick arches, sprung between them which form the floors; these arches are laid over with narrow Georgia pine plank, flooring solid and enduring.

The cost of the building is about $150,000, and the ground about $50,000 additional, making the entire cost of the building complete, and the grounds attached, $200,000. The hall and grounds are enclosed with a beautiful, neat and permanent iron fence, which adds much to the beauty of the whole.

PUBLIC PARKS.

City Park

The City Park is located in the 7th ward of the city, and contains 7 acres. It is bounded by Park and Flushing Avenues, and Navy and Park streets. This beautiful park is laid out in triangular plots, and walks running in parallel and diagonal lines through it, and ornamented with shade trees, the whole enclosed with a neat and substantial wooden fence, with a number of swinging gates. This park is much the resort of the citizens as a place of recreation and exercise, particularly for children. The whole cost of the park, including fencing grading, and laying out was about $65,000, which was apportioned by commissioners, appointed for the purpose, and assessed on the real estate adjacent to it. The title of the park is vested in the Mayor and common council of the city of Brooklyn, but cannot be sold at any time by them.

WASHINGTON PARK.

Fort Greene.

This time honored spot, the scene of troubous times is, by a recent act of the Legislature, to be converted into a public park, at a cost of about $107,000, which amount is to be paid by general assessment on all the real and personal estate in the city, payble within 20 years, for which the Mayor and common council are authorized to issue bonds at not less than par value, to be redeemed within the twenty years. This park will contain 33 acres. It is one of the most beautiful places in Brooklyn, and is advantageously and conveniently situated, being nearly in the centre of the city. From its elevated position it commands a magnificent view for several miles in extent on all sides, and when the work of grading, fencing laying out, and ornamenting shall be accomplished, it will afford one of the most delightful, healthful and picturesque places for recreation, exercise and amusement that any city in the Union can boast of. This park is also situated in the 7th ward, about half a
miles from the City Hall, and is bounded as follows, viz: Myrtle and DeKalb Avenues, and Cumberland and Canton streets.

This city of the dead is located about 2\frac{1}{2} miles from the city hall, and contains 242 acres of ground. It is enclosed by an unique picket fence 10 feet in height, a large portion of the ground is still covered with wood of various kinds, and its surface is well adapted to the solemn and secluded objects to which it has been appropriated.

The grounds are laid out in plots of 13 feet in width and 25 feet in length; the price of one single lot is $100, and when two or more lots are taken in one parcel the price of each lot is made to average $80 per lot, which may be enclosed and ornamented to the taste of the purchaser.

The portals to this sacred spot are attended by a person appointed for the purpose, who resides at the main entrance. On the entrance of the funeral train, the bell attached to the grounds is toiled which adds additional solemnity to the scene, and continues to peal forth its solemn sounds until "the last of earth" is deposited in its final resting place.

Visitors on foot or otherwise are required to obtain tickets before they can be admitted to the grounds, which
can be procured gratis by application at the office in Wall street, New York.

This institution is one of the most valuable charity's in the city, relieving a vast amount of suffering at a very small expense; as yet however it is little known to the good citizens of Brooklyn, and is not as well supported by their contributions as it deserves.

TOMB OF THE MARTYRS.

The Sepulchre of the bones of 11,500 Patriots of the Revolution,
Who died in Dungeons and Prison Ships, at the Wallabout, during the Revolution.

This consecrated spot is located in Hudson Avenue, near York st., and adjoining the U S Navy Yard. It was deeded to the Tammany Society, of New York, in the Year 1803 by John Jackson, Esq. a valuable and estimable citizen of Brooklyn, for this holy and patriotic purpose. Several hogsheads of the bones of these martyrs to American Liberty, were collected and preserved by Mr Jackson in 1803, and on the 13th day of April 1808, the corner stone, with appropriate ceremonies, was laid under the direction of the Tammany Society, and on the 26th of May following, in the same year, a grand, imposing, and solemn procession escorted these holy remnants of British cruelty, and tyranny, to a place of sepulture. This receptacle of the patriot dead, subsequently fell into the hands of Benjamin Romaine, Esq. who was the Grand Sachem of the Tammany Society, by whom an Ante-Chamber and Fence was erected, and several other improvements made at his own expense. Mr Romaine, was himself a prisoner on board the old Jersey, and suffered with those over whose bones he watched with zealous and pious care for many years. This venerable man lies with those with whom he suffered, which was his only prayer during his life, and failed not to incorporate it in his last will and testament, which request was religiously complied with by his executors.

For thirty years, this good man watched over these precious relics, like a faithful sentinel, and regarded them to use his own words, ‘as lying nearest his heart, and loving them as he loved his own soul.’ United in life, he desired not to be separated in death.

Laying the Corner Stone, April 13, 1808.

UNITED STATES DRY DOCK.

Brooklyn Navy Yard.

Chief Engineer.
WILLIAM J. McAULPIN, 87 Henry Street.

Assistant Engineer.
JOHN O. MORSE, Globe Hotel.

This stupendous work was commenced in the month of October, 1844, when ground was broke with appropriate ceremonies. The foundation of this dock is completed, and the masonry embracing two-thirds of the first course of the stone floor, and the culverts, (as far as they go) have been constructed. The foundation of this dock consists of about 7000 piles driven between 30 and 40 feet into the earth. The intermediate space is filled for three feet deep, with a mass of 'concrete,' composed of pebbles, broken granite and cement. Timbers one foot square are next 'dowelled' to the heads of these piles, between which the 'concrete' is again filled in. A floor of plank four hundred feet long, by one hundred feet wide, covers these timbers; and another course of square sticks and concrete follow, over which will lie first, a course of stone flagging 20 inches thick, and secondly, the fine cut granite, constituting the floor proper.
From the head of the pile to the surface of this last mentioned course of stone, is nine feet of work, the most solid and enduring. From this floor, rise the walls of the dock 36 feet high. These will be of fine cut granite, leaving the dimensions of the chamber 38 feet wide at the bottom, and 98 feet at the top.

Its length at the bottom will be 258 feet, at the top 308 feet. It will require 100,000 stones besides 4,000 tons of Rubble, and when finished, will 'dock' the largest ship in the American Navy. Its entrance will be closed by two gates, and it will be emptied of water by means of 6 or 8 large pumps, constructed for the purpose. The average number of men employed on this magnificent work, is about 400.

It is confidently expected that the 'Dock' will be finished in the spring of 1850, and the cost probably amount to about a million and a half of dollars. Under the superintendence of the present worthy and efficient Chief Engineer, Wm. J. McAlpin, and his assistant, John O. Morse, this work is going on as rapidly as the necessary funds can be obtained, and the permanent and durable construction of the work will admit.

The compiler cannot close this first volume of the "Municipal Register" without presenting to the public a few extracts from the Ancient Records of the county of Kings and the Town of "Breukelen," commencing at so early a period as 1654, and continuing the same down to the year 1699. These curious relics of Antiquity have been selected from the records in various offices in the county, and present to the reader a specimen of the style and manner of conducting the public affairs in the infancy of the county and town government. The compiler also feels assured that these selections from the olden time will afford to the reader instruction and amusement.

First European Settler, 1625.

The first European settler in this Town of "Breukelen," was George Jansen de Rapelye at the "Het Waale Boght" in the year 1625. On the 7th of June, 1625, Sarah was born unto these pioneers evidently the first white child born on this Island, and was so honored and regarded. Sarah grew up to womanhood and became united in marriage to one of the original Dutch settlers named Hans Hanse Bergen; this union produced six children whose names were, Michael Hanse, Joris Hanse, Jan Hanse, Jacob Hanse, Breckje Hanse and Marylje Hanse. While these children were yet young, her husband died, and in due time she formed another matrimonial connection with Tennis Guysbertse Boggart. This union proved as fruitful as the preceding one, the result of which was six more children, who were named, Aurtie, Antje, Neelje, Aultje, Catalynije and Guysbert. Breckje Hanse went to Holland. In the Dutch Journal of 1656 it is recorded as follows: "The widow of Hans Hansen the first born Christian Daughter in the New Netherlands, burdened with seven children, petitions for a grant of a piece of meadow in addition to the twenty morgan (forty acres) granted to her at the Waale Boght."
